Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

From late 1975 through 1977, David Berkowitz went on a killing spree in the New York metropolitan area--a spree that left six people dead and seven wounded. When captured and found guilty, he received a sentence of 365 consecutive years in prison. Ten years into David's prison sentence a fellow inmate began to share with him Christ's love, hope, and forgiveness. David's prison journals offer irrefutable evidence that God has indeed done a marvelous and miraculous work in this man's life.
