forms that existed in  
Evolution  
past millennia. It is  
Answers  
the study of  
fossils—the bones,  
shells, teeth, and  
other remains of  
organisms, or  
evidence of ancient  
organisms, that have  
survived over eons of  
time. Paleontology  
supports the theory

Download  
Ebook Biology  
of evolution because  
it shows a descent of  
modern organisms  
from common  
ancestors.

Ebook Biology

The only explanation that makes any sense is if this DNA was inherited from a common ancestor.

Homologies between junk DNA are probably the most powerful of the homology evidence for common descent, as common descent is the only rational explanation for them.
