CIRIA C686 1 1 Introduction 1.1 Setting the scene The construction industry contributes some nine per cent of the UK's GDP, amounting to around £65 billion investment per annum (National Audit Office and Bourn, 2001). This is a significant contribution but what is not always appreciated is that the cost of maintaining and repairing the resulting asset base is about £26 billion. So it is ...

The introduction of the Construction (Design and Management) Regulations in 1995 provided the regulatory impetus for designers to give due attention to the whole-life aspects of facilities.

"TRB's National Cooperative Highway Research Program (NCHRP) Research Report 839: A Performance-Based Highway Geometric Design Process reviews the evolution of highway design, presents several key principles for today's design challenges, provides suggestions for a new highway geometric design process, and demonstrates the value of the process through six case studies. The new process focuses on the transportation performance of the design rather than the selection of values from tables of dimensions applied across the range of facility types." - Publisher description

Includes entries for maps and atlases.

- General - Requirements - Principles of limit state design - Basic variables - Structural analysis and design assisted by testing - Verification by the partial factor method - Annex A1 (normative) - Application for buildings - Management of structural reliability for construction works - Basis for partial factor design and reliability analysis - Design assisted by testing - Appendix A: The Construction Products Directive (89/106/EEC) - Appendix B: The Eurocode Suite - Appendix C: Basic statistical terms and techniques - Appendix D: National standard organizations

Providing detailed information for civil and structural engineers on the use of Eurocode, this handbook covers the basis of design, its background and relationship to the other Eurocodes. This Eurocode provides general principles for the structural design

Fully revised and updated in 2003 to take into account changes in legislation and best practice. Cranes are some of the most widely operated items of plant on construction sites. But, if misused, they can cause serious harm. This guide gives a thorough step-by-step breakdown of the thought processes involved to ensure that a crane remains stable at all times. It gives information on the various factors which you should consider when planning the use on site of both mobile and tower cranes, including type and choice of crane, loading cases, ground conditions and foundation details. Diagrams, symbols, tables and checklists enhance the text throughout. The guide also includes references to other topical material on the subject, while a number of accident case studies, with dramatic photographs, alert readers to the dos and don'ts of crane use.

Organ transplantation has been the most important therapeutic advance in the last third of the 20th century. Its development has revolutionized medicine, as demonstrated by the fact that a large number of researchers in this field have been awarded Nobel Prizes. In the beginning of this century, we are witnessing with great expectations the emergence of a new field of medicine related to the arrival of a new player on the scene: (stem cells) and their potential use in regenerative medicine. This volume aims to cover important aspects of the various facets of organ transplantation and regenerative medicine, with leading specialists in these fields setting out their vision. We try to rigorously explain current and novel scientific research in these fields;areas which arouse great interest from society in general, due to their potential use in modern medicine for the treatment of a great number of diseases.

Contents: Introduction; Integrating the tramway; Tramway clearances; The infrastructure; Tramstops; Electric Traction System (ETS); Signalling; Tram design and construction; Tramway signs for tram drivers; Road and tram traffic signalling integration; Heritage tramways; Non-passenger carrying trams; Common terms; Registration.
