Kurose_Computer Networking A Top-Down Approach 7th edition ...

Motivates readers with a top-down, layered approach to computer networking. Unique among computer networking texts, the Seventh Edition of the popular *Computer Networking: A Top Down Approach* builds on the author's long tradition of teaching this complex subject through a layered approach in a "top-down manner." The text works its way from the application layer down toward the physical layer, motivating readers by exposing them to important concepts early in their study of networking.

Welcome to the authors' website for the textbook, Computer Networking: a Top Down Approach (Pearson). The 8th edition of our textbook has been published in the spring of 2020 - find out what's new in the 8th edition. From this page here (check out the menu at the top of the page), you can find resources and information of interest to students, teachers, and readers alike.

Jim Kurose homepage

Computer Networking: A Top-Down Approach Featuring the Internet explains the engineering problems that are inherent in communicating digital information from point to point. The top-down approach mentioned in the subtitle means that the book starts at the top of the protocol stack--at the application layer--and works its way down through the other layers, until it reaches bare wire.
