128-page book helps students use geographical knowledge and skills to interpret and analyze data. This text covers topics including maps, graphs, hemispheres, seasons, ocean currents, precipitation, and weather maps. The book presents information through activities such as maps, charts, diagrams, and graphs that support National Geography Standards. It also includes assessments and answer keys.

A complete update of the definitive guide to the planning and scheduling of construction projects Now with a dedicated Web site containing a downloadable version of the premier CPM scheduling software program-Micro Planner Manager(r) from MicroPlanning International for both Windows(r) and Macintosh platforms This Fourth Edition of Construction Project Management reaffirms the book's status as the industry-leading, definitive guide to the Critical Path Method (CPM) of project scheduling. It combines a solid foundation in the principles and fundamentals of CPM with particular emphasis on project planning. A highway bridge with a complete cost estimate is used to illustrate each of the principles of project management. Using this basic information and the case studies in the appendix, students are given project management problems and hands-on project management experience. Important features of Construction Project Management, Fourth Edition include: * Complete coverage of planning and scheduling principles that apply to every type of construction project * Special emphasis on the most difficult and important part of CPM-the planning process * A new chapter on production planning, the process of turning the project plan into efficient workplace operations * New methods for handling construction contingency planning and weather delays * In-depth coverage of the legal aspects of CPM scheduling * Large illustrations conveniently tucked into a back cover pocket An excellent text for both building construction and construction engineering students, this book is also an indispensable on-the-job reference for builders, architects, civil engineers, and other construction professionals.

Responding to the demands of the Framework for Teaching English, Years 7-9, within the context of the revised National Curriculum, the Level Best series offers a carefully structured and motivating approach to English for 11 to 14 year-olds. Making clear the purpose and structure of each unit and the skills being developed, the books offer opening questions for discussion in small groups and provide opportunities throughout to learn in a variety of ways. Encouraging students throughout to examine and explain how they reached their conclusions, the series provides plenty of support in order to increase confidence and achievement. It aims to guide students towards realistic targets by encouraging reflection on what has been learnt during the course of each unit before moving on to the next level. The Teacher Resource Books provide extensive support, including suggestions for teaching styles, model answers and photocopiable worksheets.

Support spelling and make phonics fun for students in grades 3–4 using *Spelling and Phonics: Daily Skill Builders*. This 96-page book features two short, reproducible activities per page and includes enough lessons for an entire school year. It covers topics such as consonant and vowel sounds, digraphs, blends, soft and hard sounds, long and short sounds, vowel pairs, commonly misspelled words, prefixes, suffixes, plurals, and possessives. Frequent reviews provide practice in a standardized test format, the activities align with state standards, and the book includes a matrix for selected states.
