Nine modern short stories that often bristle with caustic humor

"Everything That Rises Must Converge" (1965) is nine posthumous stories. The introduction is by Robert Fitzgerald.

Julian, a recent college graduate, accompanies his mother on the bus to her weekly exercise session. A self-styled intellectual, Julian resents his mother's ingrained prejudice and superiority, but is forced to face the consequences when their actions put them at odds with the passengers of their recently racially-integrated bus. American author Flannery O'Connor is known for her portrayal of flawed characters and their inevitable spiritual transformation. "Everything That Rises Must Converge" addresses themes of institutional discrimination at a time when racial barriers were being shattered. From a cuneiform tablet to a Chicago prison, from the depths of the cosmos to the text on our T-shirts, art historian and journalist Lawrence Weschler finds strange connections wherever he looks. The farther one travels (through geography, through art, through science, through time), the more everything seems to converge -- at least, it does through Weschler's giddy, brilliant eyes. Weschler combines his keen insights into art (both contemporary and Renaissance), his years of experience as a chronicler of the fall of Communism, and his triumphs and failures as the father of a teenage girl into a series of essays that are sure to illuminate, educate, and astound.

During the 1950s and early 1960s Flannery O'Connor wrote more than a hundred book reviews for two Catholic diocesan newspapers in Georgia. This full collection of these reviews nearly doubles the number that have appeared in print elsewhere and represents a significant body of primary materials from the O'Connor canon. We find in the reviews the same personality so vividly apparent in her fiction and her lectures--the unique voice of the artist that is one clear sign of genius. Her spare precision, her humor, her extraordinary ability to permit readers to see deeply into complex and obscure truths--all are present in these reviews and letters.

"A back country orphan struggles to defy his uncle's prophesy that he will become a baptist prophet"--NoveList.

When Thomas's mother takes a young woman jailed for fraud under her wing, he is instantly wary of the newcomer. When his mother takes her charity even farther and invites the woman, Sarah, to live with them, Thomas predicts disaster and begins to take steps to have Sarah removed from their home and from his life. "The Comforts of Home" was originally published in Flannery O'Connor's 1965 short-story anthology, Everything That Rises Must Converge, and deals with themes familiar in many of O'Connor's works, including religion and morality. This study explores the dualities that inform the entire body of Flannery O'Connor's fiction. From the almost unredeemable world of Wise Blood to the climactic moments of revelation that infuse The Violent Bear It Away and Everything That Rises Must Converge, O'Connor's novels and stories wrestle with extremes of faith and reason, acceptance and revolt; they arch between cool narrative and explosive action, between a sacramental vision and a primary intuition of reality.

Seeing Flannery O'Connor in the company of poets, rather than realistic prose writers, this work shows how she uses recurring figures of speech to transform or re-create the external world.
