grips are
ambidextrous.

The V10 requires
individual right

I have the FAS
6004 and love
it. It is
underpowered at
around 350-375
fps, but I knew
that going into
it. It is
extremely
accurate and
very well made.
The grip fits me
like it was

Think I paid
\$388 for it last
year. Another
excellent pistol
is the FWB 65.
It is longer and
more powerful at
about 450 fps.
They can be had
for under \$500.
