There are 168 hours in a week. This book is about where the time really goes, and how we can all use it better. It's an unquestioned truth of modern life: we are starved for time. With the rise of two-income families, extreme jobs, and 24/7 connectivity, life is so frenzied we can barely find time to breathe. We tell ourselves we'd like to read more, get to the gym regularly, try new hobbies, and accomplish all kinds of goals. But then we give up because there just aren't enough hours to do it all. Or else, if we don't make excuses, we make sacrifices. To get ahead at work we spend less time with our spouses. To carve out more family time, we put off getting

in shape. To train for a marathon, we cut back on sleep.

There has to be a better way-and Laura Vanderkam has found one. After interviewing dozens of successful, happy people, she realized that they allocate their time differently than most of us. Instead of letting the daily grind crowd out the important stuff, they start by making sure there's time for the important stuff. They focus on what they do best and what only they can do. When plans go wrong and they run out of time, only their lesser priorities suffer. It's not always easy, but the payoff is enormous. Vanderkam shows that it really is possible to sleep eight hours a night, exercise five days a week, take piano lessons, and write a novel without giving up quality time for work, family, and other things that really matter. The key is to start with a blank slate and to fill up your 168 hours only with things that deserve your time. Of course, you probably won't read to your children at 2:00 am, or skip a Wednesday morning meeting to go hiking, but you can cut back on how much you watch TV, do laundry, or spend time on other less fulfilling activities. Vanderkam shares creative ways to rearrange your schedule to make room for the things that matter most. 168 Hours is a fun, inspiring, practical guide that will help men and women of any age, lifestyle, or career get the most out of their time and their lives.

Offers techniques and strategies for increasing income while cutting work time in half, and includes advice for leading a more fulfilling life.

von 2 Stunden, 2 Minuten und 57 Sekunden liegt das Ziel scheinbar in greifbarer Nähe. Doch wer wird so schnell, so lange laufen können? Der Marathon ist jedoch viel mehr. Seit dem 5. Jahrhundert v. Chr. lässt er die Menschen träumen und hat seitdem nichts von seiner Faszination verloren. Denn jeder kann am Marathon teilhaben, wenn er bereit ist, sich dieser Herausforderung zu stellen. Aber nur die besten Läufer der Welt werden in der Lage sein, den unmöglichen Marathon zu laufen.

This is the fascinating story of how Nazi war criminals escaped from justice at the end of the Second World War by fleeing through the Tyrolean Alps to Italian seaports, and the role played by the Red Cross, the Vatican, and the Secret Services of the major powers in smuggling them away from prosecution in Europe to a new life in South America. The Nazi sympathies held by groups and individuals within these organizations evolved into a successful assistance network for fugitive criminals, providing them not only with secret escape routes but hiding places for their loot. Gerald Steinacher skillfully traces the complex escape stories of some of the most prominent Nazi war criminals, including Adolf Eichmann, showing how they mingled and blended with thousands of technically stateless or displaced persons, all flooding across the Alps to Italy and from there, to destinations abroad. The story of their escape shows clearly just how difficult the apprehending of war criminals can be. As Steinacher shows, all the major countries in the post-war world had 'mixed motives' for their actions, ranging from the shortage of trained intelligence personnel in the immediate aftermath of the war to the emerging East-West confrontation after 1947, which led to many former Nazis
