~~JOHN DEERE 630C For Sale - 14 Listings | TractorHouse.com ...~~

John Deere SPFH come with variable header drive in base. The header speed is automatically synchronized with the feeding speed and length of chop through a hydrostatic IVT™ drive system. This ensures a gentle and even crop transfer from the header into the machine without blocking or disrupting material transition.

~~9000 Series Self-Propelled Forage Harvesters - John Deere US~~

John Deere has implemented a concept layout well proven on the 7000 Series. Key characteristics are a set of front feedrolls where, when the header interface is in a vertical position; the upper-front feedroll (UFFR) reaches out about 60 mm (2.4 in) over the crop in front of the lower one, grabbing the mat from the harvesting header and pulling

I have JD spfh 6810 1992 year. I have cut off (not knowing) the diode on the relay which engage the clutch (that is in grey tube box on the length off cut transmission gear box) I believe that is the reason why once I engage the header it won't shut off anymore when forward-reverse switch is in neutral, it shut off if I push the switch in reverse brief, or disengage main clutch brief. I tried to get ...
