The guide to courseware for computer-assisted instruction and computer-managed instruction in bilingual education, English as a second language, and second language instruction contains entries from the National Clearinghouse for Bilingual Education's database and selected courseware for the related areas of special education, vocational education, and adult basic education. Each entry includes: (1) the name/title of the courseware program; (2) the producer's name, address, and telephone number; (3) computer hardware, memory/equipment requirements, software specifications, and courseware format; (4) the language; (5) the type of program or instructional technique; (6) the content area; (7) the grade or proficiency level; and (8) a brief abstract, with external evaluation if available. The courseware is also indexed alphabetically by title, content area, and language. (MSE)

First Published in 1998. This volume will surely be regarded as the standard guide to Russian literature for some considerable time to come... It is therefore confidently recommended for addition to reference libraries, be they academic or public.

The phenomenal #1 bestselling author who revolutionized our understanding of male-female relations returns to the territory he intimately knows to help couples get past stress and find the loving relationship they want Once upon a time, Venusians and Martians functioned in separate worlds. But today they each struggle in the same hectic, career-oriented environment. Exhausted by the time they get home, he's eager to tune out and relax, while she wants to share the events of her day. The result: anger and resentment as Venus and Mars collide. In this positive, practical guide, John Gray explains the different ways men and women are affected by stress, demonstrates how each approach their problems, and offers a clear, easy-to-understand program to bridge the gap and help them achieve a loving, nurturing relationship.

This book offers simple, practical help for busy people who need fast results. Through goal-oriented, 10 minute lessons, it teaches you all the essential tasks of getting up and running on the Internet and World Wide Web.
