Part philosophical ponderings on humanity's relationship to the universe, part scientific extrapolation on what technological advancement might bring to that understanding, this long essay, first published in Century Illustrated Magazine in June 1900, is yet another example of the genius of Serbian inventor NIKOLA TESLA (1857-1943), the revolutionary scientist who forever changed the scientific fields of electricity and magnetism.

The Problem of Increasing Human Energy: Amazon.co.uk ...

We know today, thanks to modern mental health science, that Nikola Tesla likely suffered from OCD and other issues that rendered him incapable of acting in his own best interests throughout his life. It is a sad tale, the end for an inventor who was every bit as smart (probably more so) as his competitors, just not able to cope with the vagaries of life in business and social circles.

The only thing the two companies have in common is that they are both named for Serbian-American inventor Nikola Tesla. The problem with hydrogen. The renewable energy carmaker currently boasts four trucks planned for release in the months and years to come–Nikola One, Nikola Two, Nikola Tre, and Nikola Badger.

Don't Be Taken for a Ride: Nikola Corp (NKLA) Is Not the ...

Nikola Tesla had to overcome lots of challenges during his life. The most crucial though was the loss of his parents. When Tesla was in the United States, he lost both of his parents very close to each other. The loss affected him so much, that he wanted to quit science then and there.

Challenges Overcome - Nikola Tesla

Nikola Tesla was a man deeply obsessed with the numbers 3, 6 and 9. Unlike many, Telsa understood a fundamental fact, unknown to others, which is the universal language of mathematics; which in the end is a science discovered by man, not invented by him. Telsa went far beyond math. He envisioned numerical patterns that exist in the universe, like star formation, the development of embryonic cells, and many others mind-boggling details that some call “God’s Plan” or “the Blueprint of ...

Nikola Tesla: The secret behind the numbers 3, 6 and 9 ...

Nikola Tesla was born an ethnic Serb in the village of Smiljan, within the Military Frontier, in the Austrian Empire (present day Croatia), on 10 July [O.S. 28 June] 1856. His father, Milutin Tesla (1819–1879), was an Eastern Orthodox priest. Tesla's mother, Źuka Mandi? (1822–1892), whose father was also an Orthodox priest, had a talent for making home craft tools and mechanical ...

Nikola Tesla - Wikipedia

Investors hungry to get in on a Tesla-like stock early enough for them to reap the rewards if it turns into an automotive juggernaut saw Nikola as the perfect opportunity. Its founder and CEO was an enthusiastic salesman in the vein of Tesla’s Elon Musk, its vehicles were set to take on the biggest automakers in the world, and it was looking to upend the trucking industry.

Investors wanted Nikola to be the next Tesla. It's not.

Nikola Tesla’s Failures, Death and Legacy Serbian-American engineer and physicist Nikola Tesla (1856-1943) made dozens of breakthroughs in the production, transmission and application of electric...

Nikola Tesla - Inventions, Facts & Death - HISTORY

Anything by Nikola Tesla promises to be perhaps stilted but inspired writing. This is the kind of guy who invents things that change the world and that some people would kill if he showed up today – the greed meisters couldn’t put up with a man who wants to give free energy to the world let alone human energy.
