P1351 Fault Code Found And Fixed - YouTube

P1351 - we see this alot - and seems to be a dummy / ghost code which has no running effect at all on the vehicle. Unless you have starting or running issues this fault code is ignored. Haven't seen P1598 before on that engine - unusual. I'd be tempted to clear the faults and see what returns.

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

The complete manual for understanding engine codes, troubleshooting, basic maintenance and more.

This is one in a series of manuals for car or motorcycle owners. Each book provides information on routine maintenance and servicing, with tasks described and photographed in a step-by-step sequence so that even a novice can do the work.

Learn how to program with Python from beginning to end. This book is for beginners who want to get up to speed quickly and become intermediate programmers fast!

Remote Sensing of Drought: Innovative Monitoring Approaches presents emerging remote sensing-based tools and techniques that can be applied to operational drought monitoring and early warning around the world. The first book to focus on remote sensing and drought monitoring, it brings together a wealth of information that has been scattered throughout the literature and across many disciplines. Featuring contributions by leading scientists, it assembles a cross-section of globally applicable techniques that are currently operational or have potential to be operational in the near future. The book explores a range of applications for monitoring four critical components of the hydrological cycle related to drought: vegetation health, evapotranspiration, soil moisture and groundwater, and precipitation. These applications use remotely sensed optical, thermal, microwave, radar, and gravity data from instruments such as AMSR-E, GOES, GRACE, MERIS, MODIS, and Landsat and implement several advanced modeling and data assimilation techniques. Examples show how to integrate this information into routine drought products. The book also examines the role of satellite remote sensing within traditional drought monitoring, as well as current challenges and future prospects. Improving drought monitoring is becoming increasingly important in addressing a wide range of societal issues, from food security and water scarcity to human health, ecosystem services, and energy production. This unique book surveys innovative remote sensing approaches to provide you with new perspectives on large-area drought monitoring and early warning.

Now in paperback and filled with stunning full-color photographs, Steve Swinburne's concept book introduces children to the basics of shadows. He then leads them on a shadow hunt, playing a game called "Guess Whose Shadow?," in which young ones will discover there's more to shadows than first meets the eye.

Nina Raine's *Tiger Country* is a hospital play that follows a tangle of doctors and nurses in a busy London hospital - from the award-winning author of *Tribes*. Professionalism and prejudice, turbulent staff romances, ambition and failure collide in this swirling, action-packed drama about an overburdened health service that we all depend on and the dedicated individuals that keep it going. 'Tiger country' is where animal instinct stirs and an irrefutable eye opens. Where we make eye contact with the unknown. *Tiger Country* was premiered at Hampstead Theatre in 2011 and, following its sell-out run, was revived there in 2014.
