$4x = 13 + 7$ . After  
that, you have to  
add those two  
numbers. You  
should get this as a  
result:  $4x = 20$ .

# Where To Download

This concluded the first step. What is left now is to get rid of the number next to the variable. You can do that by dividing the whole equation with the number 4. Like this:  $4x = 20$   
|:4.
