The Mentalist ' s Handbook is filled with many exercises for developing visual abilities, memory, projection, and clarity of thought, and several are unique or uncommon exercises for developing psychic abilities. The exercises themselves are perhaps my favourite part of the book, covering the basics of meditation and focus, progressing up to astral travel, and the manipulation of internal and external aether.

The Mentalist's Handbook: An Explorer's Guide to Astral, Spirit, and Psychic Worlds. There is a world that mirrors our own.

Everything in this world is made of substance finer than air, finer than light, finer than thought itself - the aether. In the aether there are inner sensations such as ideas and feelings that are as tangible as anything in the material world.
